PROJECT SCOPE STATEMENT

Project Name	Let's Get Physical

Project Deliverables

[High-level deliverable from the WBS is listed here.]	Usefulness This app must provide usefulness to the user. It should provide purpose to the user why this application must be use. Usability The software should be able to perform its main functionalities at all times. Easy navigation The software should have a seamless navigation. It is a fact that when user cannot find the tool they needed; it might as well do not exist in the first place. Valuable The software should keep its value to the user. In this case, the user should feel they are getting motivated when they use the app. Note: If list above is accomplished earlier than expected, the developer might add more to this list.

Project Exclusions

The communication experience will be excluded in this app. To be specific, messaging or calling mechanism will not be part of this project.
